Account no. _____

I, _____ the owner, request that AWS remove my backflow assembly, return it to me and install the pvc pipes where the backflow assembly was removed at the following address: _____.

At the same time, AWS will install an inline Dual Check at the meter.

There will be a 1 year warranty against leaks for the specific area in the line that we worked on.

I understand the fee is \$45 and the charge will be added to my monthly bill.

I understand that in the future if I create a cross connection, a reduced pressure principle assembly will be required to be installed immediately within 1 foot of the water meter.
